

WAKE UP WARRIOR

Wake Up Warrior is a personal growth app that helps users build discipline, stay motivated, and achieve their goals through consistent self-improvement.

Product By DevIn

PRODUCT OVERVIEW

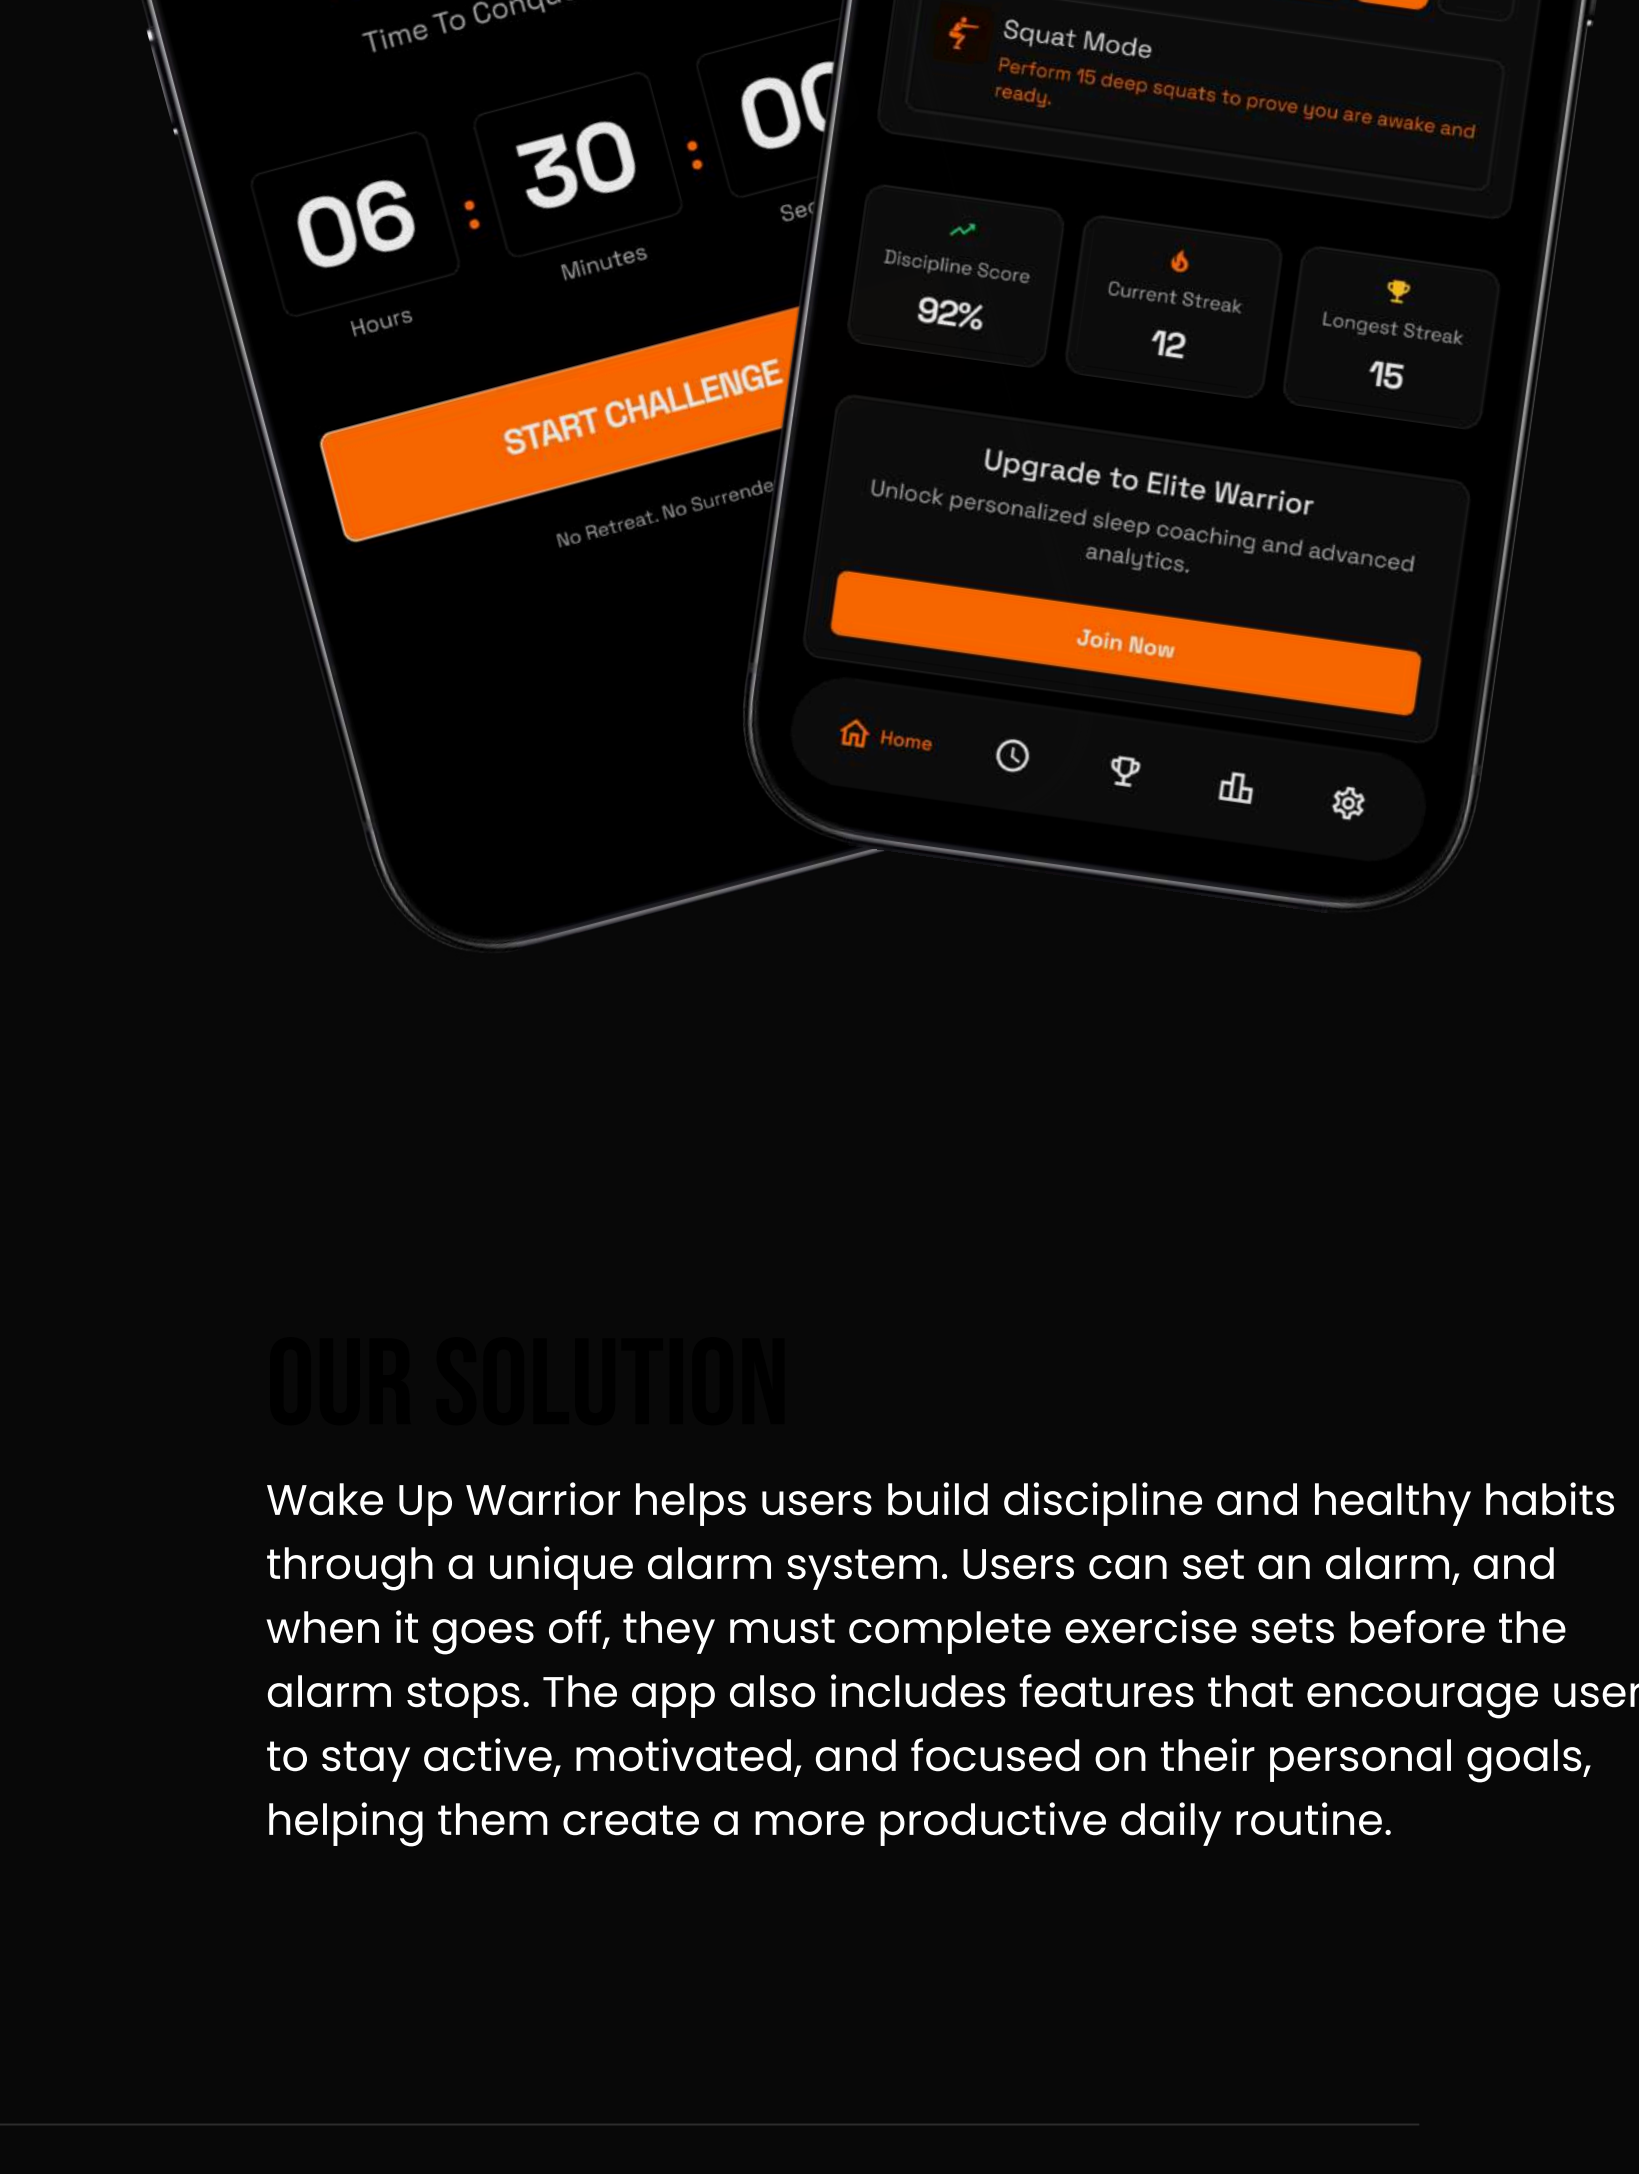

Wake Up Warrior is a discipline-focused alarm app for iOS and Android that forces users to complete physical or mental challenges — squats, math problems, or scanning a QR code placed in another room — before the alarm dismisses. No snooze, no shortcuts. Streaks, milestones, discipline scores, and analytics drive consistency, with an Elite Membership unlocking advanced challenges, unlimited alarms, premium tones, and deeper insights.

Tools Used

UI/UX Design & Full-Stack Develop

We designed and developed Wake Up Warrior end-to-end — the complete Flutter application including the challenge-verified alarm engine, system volume override, squat and math challenge modes, QR code mode, streak and milestone systems, subscription payroll, and store release — together with the full UI/UX design and design system.
